SUBSESSION Traveller 3

2.1 speaker system

USB BUS POWERED

Speaker

- 2.1 speaker system
- USB bus powered (no power supply needed)
- USB 2.0 Full-Speed compatible
- Class D Amplifier
- Line input for external audio sources
- Plug ‘n Play (no driver necessary)

The attractively shaped 2.1 SubSession Traveller 3 speaker system works in a totally uncomplicated way to provide perfect sound for your PC, Mac or even external audio devices, such as an MP3 player. The high-class speakers and high-performance class D amplifier guarantee sound that is powerful and yet transparent at the same time, thereby delivering an outstanding sound experience at all times.

It is very easy to connect: Simply connect it to your computer via the USB port and you're done. Straightaway you will experience games, movies or songs in a totally new sound dimension. And it does this without any driver installation. An extra sound card is also unnecessary.

Via the 3.5 mm input for external audio devices you can also connect an MP3 player, for example. The SubSession Traveller 3 system combines sophisticated technology, stylish design, easy operation and first-class sound into a top-class audio experience that should not be missing from any desk.
